Abstract

In economics, the cycle of poverty is a "set of factors or events by which poverty, once started, is likely to continue unless there is outside intervention". Therefore, to end poverty, we must start with breaking the cycle.

Current Situation

a.) Poverty in a family-
full-time, year-round
employed parent < part-
time/part-year or
unemployed.

Percentage of children in low-income and poor families by parents' employment and education, 2011

Basic Facts About Low-income Children: Children Under 18 Years, 2011

b.) Education helps
decrease the unemployment
rate and helps earn a higher
salary

Earnings and unemployment rates by educational attainment

Note: Data are for persons age 25 and over. Earnings are for full-time wage and salary workers.
