2017 Kaohsiung International Forum of Social Science and Humanities (KIFOSH)

1. Rationale

The area of Humanities is considered one of the pillars of the academic world. According to the remarks by J. Martin Evans at Stanford University, by studying humanities, we “direct our attention to the fundamental human experiences, thoughts and feelings that transcend the social, ethnic and religious differences that divide us.” This is the reason we will give young scholars an opportunity to address their concerns at Kaohsiung International Forum of Social Science and Humanities (KIFOSH).

Since 2011, Ritsumeikan High School has been on the intimate terms with Kaohsiung Girls’ Senior High School (KGHS) as well as Kaohsiung Senior High School (KSHS). The three sister schools are focused on cultivating youth leadership in our students. KIFOSH is thus established for the purpose of arousing students’ awareness of many global issues and encouraging them to find solutions to the existing problems. Besides, students and teachers form a learning circle through discussions, workshops and fieldtrips.

2. Goals

Kaohsiung International Forum of Social Science and Humanities (KIFOSH) is to foster the students who will be leaders who enjoy teamwork.

In our program, students will learn

- A. how to explore different domains of humanities in both global and local aspects
- B. how to obtain leadership and followership through networking virtually and physically
- C. how to work out solutions through teamwork
- D. how to enhance the mutual understanding among partners of different nationalities, with different belief and thinking.

3. Participants

KIFOSH, 2017, taking place between August 18 and 23, is hosted by KGHS and co-hosted by KSHS. The delegates are accommodated by both KGHS and KSHS with a homestay program. The main venue is at KGHS.

4. Organization

The participants will be divided into 5 groups, each of which will contain 4 Japanese students and 4 to 5 Taiwanese students. Under the guidance of the instructor, students are accompanied by one mentor and dig further into one assigned topic.

5. Themes

We are pleased to announce that we have set the main theme for KIFOSH2017 “**Pursuing a Better Life**”. It is the core value of this year. For this forum, we are focusing issues more close to students’ real life and have set five subjects.

1. Dietary Education
2. Publishing culture and Reading habit
3. News and Mass media
4. Fast Fashion
5. Travel Culture

We encourage students to take advantage of these opportunities, express what they feel and discuss with group members. Through a series of discussions and activities, we hope that students can share their viewpoints with each other. We also encourage students to incorporate the ideas they get from this forum into real life in the future, showing concern for society, promoting public welfare, doing good works by sharing and helping others, and in the end, creating and embracing a "better life."

1. Dietary Education
 - Food supply
 - Food self-sufficiency ratio in our country or other countries.
 - Locavore is a movement aims to connect food producers and food consumers in the same geographic region.
2. Publishing culture and Reading habit
 - Culture differences between counties.
 - Electronic facility or traditional paper?
 - How reading habit of different countries influence people.
3. News media
 - The news media or news industry are forms of mass media that focus on delivering news to the public or a target public.
 - Culture differences

- Is there any difference between Taiwan and Japanese TV News?
4. Fast Fashion
- Culture differences
 - What is the definition of “Fast fashion” industry?
 - How does Fast fashion company work?
 - What are the advantage and disadvantages of “Fast fashion” industry?
 - What can people do to solve the problem we are facing now?
5. Travel Culture
