

Data of the Virtual Country for RSGF 2021 Online

Population	20 million people (increasing in recent years), Average age: 25 years old Urban population rate: 65% Mountain population rate: 15% Riverside population rate: 10% Coast area population rate: 10%
Land area	37,000 km ²
Climate	Tropical climate over the whole country, with a rainy season and a dry season. There are frequent typhoons during the rainy seasons.
Geography / Domestic condition	<p>Adjacent to two countries on the peninsula</p> <p>【Mountainous region】</p> <ul style="list-style-type: none"> • About 15% of the population lives in the mountain region. • People who make a living from natural rubber production live in the mountains. • There are forests, a rich ecosystem, and rare creatures such as birds and animals living in the mountains. <p>【City area】</p> <ul style="list-style-type: none"> • 65% of the total population lives on flat land away from the mountains. • Facing the sea, manufacturing industries and resort areas are developing along the coast. Many tourists visit during the dry season. • Wealthy people and middle class people live in this area. • Landslide disasters and flooding caused by typhoons affect this area. <p>【Riverside】</p> <ul style="list-style-type: none"> • A river with a total length of about 120 km runs from the mountain to the sea. • Floods frequently occur due to heavy rains during the rainy season and typhoons in the nearby seas. • People do not want to live by the riverside because flooding often occurs. Since land prices are low, poor people live along the rivers. • Along the river, slums have formed, and 10% of the population is below the international poverty line. <p>【Coastal Area】</p> <ul style="list-style-type: none"> • About 10% of the total population lives on the coast. • The area used for rubber production is growing. • It used to be a rich fishing area but recent environmental pollution is causing marine animals to die at a rapid pace, killing the fishing industry.
Industry	<ul style="list-style-type: none"> • The country consistently produces natural rubber and manufactures rubber products which is a major export source. • In the dry season, the tourism industry flourishes in resort areas along the sea.
GDP	US\$350 billion
Religion	There are no religions practiced by the majority of the inhabitants, including non-religions.
